Nursing Evidence-based Practice Skills

By Karen Holland, Colin Rees

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Nursing Evidence-based Practice Skills, Karen Holland, Colin Rees, To deliver safe and effective patient care student nurses need to find, critique, and use evidence in every day nursing decisions and academic work, Consequently they need a new textbook that goes further than simply explaining research methods. Nursing Evidence-Based Practice Skills has been developed as a one stop shop for research theory and evidence based practice skills for all aspects of the pre-registration nursing course - in both the classroom and on clinical placement. Taking a logical approach, the authors introduce the role of evidence based practice in nursing before explaining how research is produced and how students can find, read and critique it in order to make informed care decisions. Theory is applied to both academic and clinical work so readers can easily see how to weigh up the evidence before applying it to a nursing decision. Useful for the entire undergraduate course, the content is mapped against the skills required of registered nurses and includes practical advice for completing final year academic assignments. Written in an easy to read, student friendly manner the authors have brought together trustworthy and reliable...
