Brand New Book ***** Print on Demand *****.When I was a teenager Light Up Your Relationships is the book I desperately needed to find but couldn t. It didn t make much sense to me back then that I was forced at school to learn math and languages while they seemed to be leaving out the the most important thing. That was how to get along with other people and how to choose the best partners in life (for love, for work, for recreation, and for spiritual growth). I started keeping notes for myself and for my clients almost 20 years ago. This book is the organized version of my discoveries. It also charts the history of the development of the Relationship Matrix, a tool I created that always delivers 100 accuracy in predicting best partnership matches. If I had been given this information in my teens, my whole life would have been so much better. How much better will yours be for reading it? I hope you will write and tell me. Enjoy the journey, Dawn How many times have you thought about the relationship you re in and wondered, What s really going on? What Dawn Macaskill has to say is the first real breakthrough in relationship psychology in over 50 years. Her book shows you exactly how to find out what s going on in any relationship, why, and how to fix it. It even tells you how to figure out if you re compatible with someone you ve just met, giving online daters a big advantage. If you want a totally new and fresh perspective on relationships, and life in general, then buy her book. I can t recommend it highly...
